mental illness,
suggests that, rather
than being "cured,"

one learns to live with
mental illness. The four
stages of recovery are
hope, empowerment,
self-responsibility, and
establishing a
meaningful role in life.

Underscoring
occupational therapy's
role in this model,
University of Kansas
researcher Catana
Brown has edited

And Wellness

Model On Hope

The sociocultural model of addiction looks at the cultural standards of a society to get clues to the way it may cause addiction.

The U.S. tends to tolerate entertainment featuring performers portraying people under the influence of drugs and alcohol in popular culture.
